

## E-Tainer® Kube: Conforms to Your Sustainability Goals.

### Semi-Rigid Container in a Sturdy, Recyclable Overpack.

Combining a semi-rigid, collapsible plastic bladder within a sturdy, corrugated overpack, the UN rated E-Tainer® Kube delivers in-use convenience with multiple sustainability benefits, including:

- Less plastic than standard tight-head containers
- 100% recyclable corrugated box made from renewable materials
- Reduced storage and transportation (energy) cost
- Corrugated weighs up to 30% less, while maintaining container

The E-Tainer Kube's deflated containers and flattened corrugated cartons stack easily and transport and store with ultra-efficiency. Easy filling and dispenser cap option ensure use in a variety of applications.

#### Common Industries:

- Janitorial and Sanitation
- Inks and Coatings
- Microelectronics
- Industrial Chemicals
- Flavorings

8-Sided Corrugated Box  
Weighs up to 30% less while maintaining container strength and integrity.

Dispenser cap shown.

## E-Tainer® Kube

### Bladder Features:

- 5 Liter
- 10 Liter
- 20 Liter
- 100% virgin resin
- 38mm neck size
- Tools for inflating available as well

### Box Features:

- 4-sided or 8-sided
- White or brown
- Handle and dust cover included
- Custom graphics available

### Advantages:

- **Tough and Durable**
  - The E-Tainer Kube is a UN rated 4G combination package engineered for demanding applications
- **Eco-Friendly**
  - Unique design requires less plastic and less energy during production, reducing carbon footprint
  - Corrugated box is made from renewable materials and is 100% recyclable
- **Collapsible**
  - The E-Tainer Kube is collapsible and stackable, allowing it to ship and store knocked down
- **Cost- Effective**
  - The Kube's unique shape maximizes storage and transportation space which means cost savings and carbon reduction
